

# KWS TRINITY

Winter Wheat

(Grafton x Einstein) x CPBT W134

SEEDING  
THE FUTURE  
SINCE 1856

## At last, the breadmaking trinity!

- Group 1 breadmaker
- Exceptional HFN and good protein
- Good sprouting resistance
- Strong, all round disease package
- Good second wheat performance

In official trials, KWS Trinity has produced superb Hagbergs (348), unbeaten by any recommended milling wheat and a good specific weight of 78.1kg/hl. When combined with its good resistance to sprouting and solid disease profile, topped off with a 9 for yellow rust, KWS Trinity is a great Group 1 proposition.

KWS Trinity is a dynamic Group 1 breadmaker, which helps farmers maximise their market opportunities through a combination of yield and quality.

RL data shows that KWS Trinity will suit all regions of the UK on both light and heavy land. With a Grafton and Einstein pedigree, it comes as no surprise that it performs well as a second wheat.

	KWS Trinity	Skyfall
Yield (%)		
UK	99	100
East	99	100
West	98	100
North	99	100
Disease		
Mildew	8	5
Yellow Rust	9	6
Brown Rust	7	9
