

KWS TARDIS

Winter Barley
(11-12 x KWS Orwell)

SEEDING
THE FUTURE
SINCE 1856

The 2-row that yields like a 6-row

- Exceptional yields across the UK for a 2-row with a very high specific weight
- Outstanding yields in the East
- Excellent disease package

KWS Tardis heralds a new dawn in 2-row winter barley breeding from KWS. It is the highest yielding 2-row winter barley on the new 2021/22 AHDB Recommended List, with a performance that rivals many 6-row hybrid varieties. The variety is particularly strong in the East of the country and especially on heavy land where it yields 110% controls.

It has an excellent disease package, boasting a 7 for *Rhynchosporium* and Net blotch [5] as well as having a short and stiff straw.

KWS Tardis offers growers the opportunity to expand arable rotations and spread workload on farm.

KWS Tardis	
Yield (% yield controls)	
UK Treated	106
East	107
West	[105]
North	105
UK Untreated	83
Disease	
Mildew	5
Yellow Rust	-
Brown Rust	6
<i>Rhynchosporium</i>	7
Net blotch	[5]
BaYMV	R
Agronomy	
Lodging (+ PGR)	2
Lodging (- PGR)	1
Height (cm)	[92]
Ripening (days +/- KWS Orwell)	0
Sp. Wt (kg/hl)	69.1
