

KWS GILMOR

Confident and stable.

KWS Gilmor	
Grain Yield	
Fungicide-treated (10.2 t/ha)	104
Disease Resistance	
Brown rust (1-9)	[2]
Agronomic Features	
Lodging (%)	[1]
Straw length (cm)	[131]
Ripening (days +/- SU Performer)	0
Grain Quality	
Protein content (%)	8.9
Hagberg Falling Number	251
Specific weight (kg/hl)	77.2

All data taken from AHDB Winter rye descriptive list 2024/25 unless otherwise stated

www.kws-uk.com

KWS Gilmor has similar yields to KWS Tayo. It shows excellent standing power and very good specific weight.

Characteristics/Quality

- Very high grain yield
- Joint-best lodging score on the 24/25 DL
- Very good specific weight

KWS Gilmor also has improved resistance to ergot thanks to PollenPLUS technology. KWS believes this highly productive cereal offers new perspectives for farmers and end-users alike. Thanks to its adaptability, hybrid rye has the potential to slot into most farming rotations.

Advantages of hybrid rye include:

- High yield potential
- Good 2nd or 3rd cereal option
- 25% lower water requirement than winter wheat
- Less nitrogen inputs
- Extensive rooting system
- Grassweed competition
