KWS

High yielding yellow pea with exceptional standing

- Strong disease package
- Very stiff straw
- Consistent performer

Manager is the latest yellow pea to hit the market from the KWS Momont successful pulse breeding programme.

It is a very high yielding variety nationally over a range of soil types; Manager has a strong disease resistance package including resistance to pea wilt. It has very short stiff straw allowing safe harvest making it the next step up from older competitor varieties.

In the last three years we have seen Manager demonstrate consistently high yields when compared to other varieties, it also consistently produces a large seed size.

In short Manager ticks all the boxes for UK pea growers and end users alike.

UK Yield (% Controls)

Data sources: PGRO Recommended List, Field Pea Varieties 2021/22

	Manager	Kareni
Yield (%)		
UK	109	102
Disease		
Resistance to Pea Wilt	R	R
Downy Mildew	6	6
Agronomy & Quality		
Earliness of ripening	6	7
Shortness of straw (cm)	85	79
Standing ability at harvest	6	7
Thousand seed weight (g)	270	280
Protein content (%)	22.5	22.5
