The new Dynamic Spring Wheat!

DYNAMIC
WHEATS

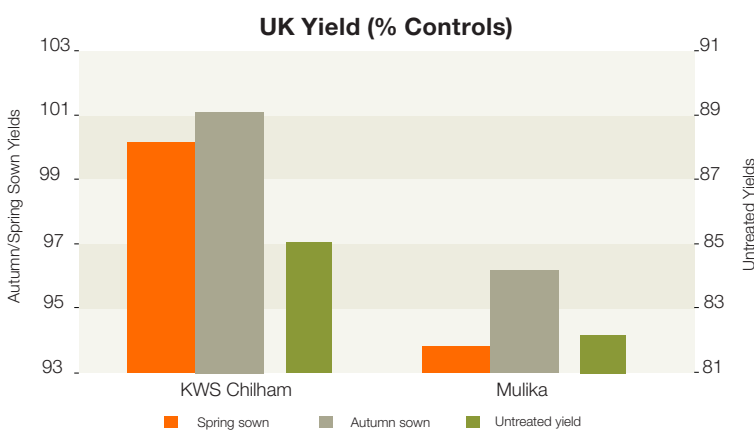

- Very high untreated yield
- High yields in both late autumn sown and in the spring sown slots
- Good all round disease profile with OWBM resistance

KWS Chilham is a spring Dynamic Wheat, which provides farmers with sound agronomics, a good all-round disease profile and excellent yields. As well as being one of the highest yielding late autumn sown varieties, it is also a high yielding spring sown wheat.

KWS Chilham is the quality spring wheat with excellent physical grain quality and good baking performance.

It is a very vigorous, high yielding variety with a competitive growth habit, meaning KWS Chilham will be a very useful tool to help manage blackgrass.
