## The complete package with *Septoria* protection built-in

DYNAMIC  
WHEATS

- 8.0 for *Septoria tritici* – the first variety over an 8
- The most complete package in terms of disease resistance and quality on the market today
- Exceptional untreated yields

KWS Extase is possibly the most exciting variety to be recommended in recent years. Its amazing combination of end-market potential, yield and disease resistance will make it a variety that every farmer will want to try in 2021 and beyond.

KWS Extase has yields similar to KWS Siskin and its regional performance is strong across the board. It also boasts the best untreated yield of any variety on the RL at 93% controls.

The disease resistance package of KWS Extase will be one aspect of the variety which will attract plenty of attention. The robust all-round package that KWS Extase offers is completed with an exceptional score of 8.0 for *Septoria tritici*.

As a Group 2 milling wheat with excellent grain characteristics, KWS Extase meets the needs of domestic millers and is approved for export with its **ukp** status.
