KWS GIRAFFE

Spring Wheat

(KWS Recoleta) x KWS Kilburn

AHDB RECOMMENDED

SEEDING THE FUTURE SINCE 1856

KWS

The new quality addition to Group 2 spring wheat

- Excellent grain package with protein levels ahead of Mulika
- Highest specific weight on the 2020/21 Spring Wheat Recommended List
- High yields when sown in both spring and autumn slots

New for spring 2020, is the high yielding nabim Group 2 wheat, KWS Giraffe. A truly dynamic wheat, KWS Giraffe yields well in both spring and autumn sown slots, delivering yields on a par with market leader KWS Cochise and the highest Group 4 spring wheat KWS Talisker.

It also boasts joint highest protein with Group 1 Mulika (13.6%) and best specific weight (79.8 kg/hl) of any spring wheat on the recommended list, offering growers truly marketable grain at harvest.

KWS Giraffe also offers growers security at harvest with short and stiff straw, good grain quality and early maturity completing its attractive package.

Sowing Performance

	KWS Giraffe
UK Yield (% treated controls)	
UK Treated Spring Sown	103
UK Treated Autumn Sown	[104]
UK Untreated	-
