

KWS KINETIC

Winter Wheat

KWS Silverstone x Reflection

SEEDING
THE FUTURE
SINCE 1856

The high yielding barnfiller

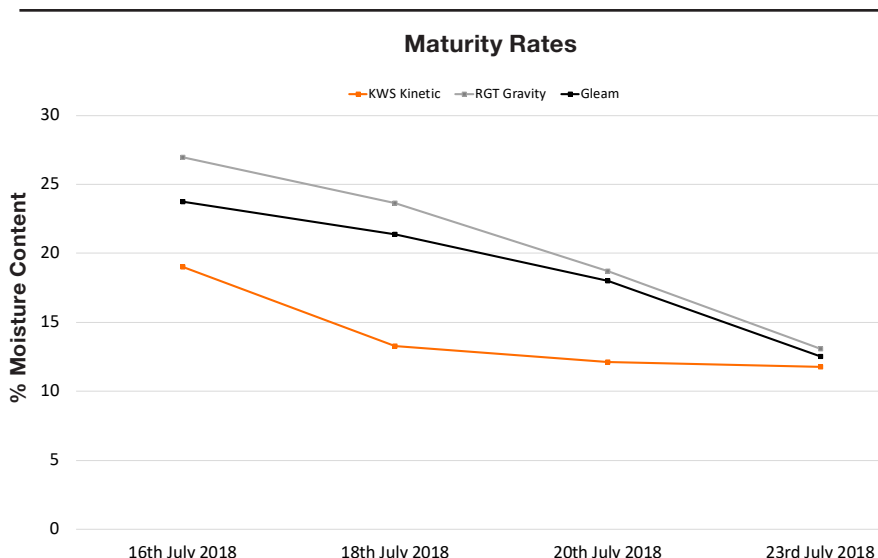

- High input high output variety
- Excellent specific weight, stiff straw + OWBM
- Early to harvest

KWS Kinetic was a new, high yielding Group 4 addition to the 2020/21 Recommended List. Over the years it has performed especially well in the East and the West.

It is a short, stiff strawed variety with good resistance to lodging, a high specific weight and good HFN - in short, it has all the characteristics required to ensure a safe harvest.

With an outstanding specific weight of 78.5 kg/hl and the right balance of protein and HFN, KWS Kinetic is able to fulfil the high volume feed market requirements successfully.

KWS Kinetic	
Yield (% treated controls)	
UK	103
East	103
West	105
Disease	
Mildew	5
Yellow Rust	4
Brown Rust	6
<i>S.tritici</i>	5.3
Eyespot	[5]
Fusarium	6.0
