THE FUTURE
SINCE 1856

KWS

Push your starch yield...
keep your harvest on track!

Characteristics / Quality

- Strong DM yield (2019: 104% – 19.8 t/ha DM)
- High grain : stover ratio for energy dense silage
 - Starch % (2019: 32.6 %)
 - ME content (2019: 11.39 MJ/Kg)
- Ideal for moderate to high (50 – 70%) TMR inclusion and/or beef finishing
- Equal ripening to KWS CALVINI in KWS screening trials
- Excellent vigour (2019: 7.5) for all soil types

Data source(s): FERA/NIAB National List Trials (2019), KWS LP250 2019.

Hybrid subject to a Pre NL Marketing Agreement.

Initial seed availability is limited.

“ KXB 9004 offers leading starch yields, thanks to its high grain density with added agronomic stability at harvest.
