

Early

KWS PASCO FAO 170/180

In Your Field...

KWS PASCO is a flexible variety for forage and grain. This is an all-round variety that will not disappoint, and is suited to high maize inclusion diets – boosting your animal performance.

Hugely consistent performance across favourable and less favourable sites.

Excellent performance for forage, grain and biogas!

FORAGE

GRAIN

BIOGAS

Characteristics / Quality

- Produces high DM yields in the field – 18.9 t/ha DM (102%)
- Balanced starch content (34.4%) – an ideal variety for high maize inclusion diets
- High energy content (11.65 MJ/kg DM) increases ration energy density
- Performs very well for crimped grain to produce a higher energy feed suitable for dairy or enhanced finishing
- Great early vigour (7.1) on all soils provides a solid start
