

KWS KAMPINOS FAO 200/210

Late/Biogas

In Your Field...

KWS KAMPINOS adds more options for AD and silage growers to fill clamps. Allows a wider drilling window/harvest in suitable conditions.

Continental yields with cold tolerance...silage or AD use!

Characteristics / Quality

- Heavy yield potential on favourable sites (21.5t/ha DM)
- Ideal hybrid for spreading drilling window
- High grain:stover ratio for stable ripening
- Excellent starch content for maturity (34.1%)
- Significant energy density (11.63 MJ/Kg DM) for animal or AD performance
- Seed at 42,000 seeds/acre (103,000 seeds/ha) in most areas
- In low rainfall areas reduce to 38,000 seeds/acre (94,000 seeds/ha) to protect yield
