

DJANGO

Oilseed Rape

SEEDING
THE FUTURE
SINCE 1856

Your golden opportunity for gross output!

- High yielding conventional variety
- Excellent combination of stem stiffness and resistance to lodging
- Ideal for fertile sites with high output potential

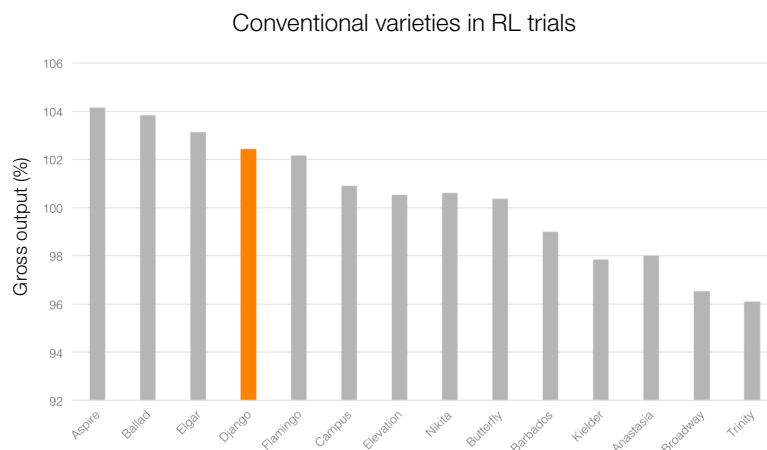

Django is a high yielding conventional variety from KWS Momont.

It has excellent stem stiffness and resistance to lodging. This, coupled with its short straw, make it ideal for growers on fertile sites looking to push the crop for maximum output.

Django is a farmer friendly variety that will deliver both yield and oil content at harvest.

Django has a good disease resistance package including reasonable tolerance to verticillium stem stripe.

Overview		
Variety Type	Conventional	
	UK	E/W
Gross Output	102	102
Seed Yield	102	102
Agronomy		
Shortness of stem	7	
Lodging	8	
Stem Stiffness	8	
Flowering	6	
Maturity	4	
Oil Content (%)	45.7	
Disease		
Light Leaf Spot	6	
Stem Canker	6	
Verticillium Wilt Tolerance*	★★★★
