## The new high yielding hybrid!

- High yielding hybrid
- Excellent stem stiffness
- Good disease package

Heliott is the new oilseed rape hybrid with impressive yields. In the North it has the joint highest yield alongside X17WT440C.

With a good agronomic package, Heliott has stiff straw and great resistance to lodging. Heliott also has medium flowering with medium/late maturity can be expected from this exciting new variety.

Heliott has a well rounded disease resistance package with good resistance to light leaf spot (6) and resistance to stem canker (5).
