SMART UMA KWS

conviso®
SMART

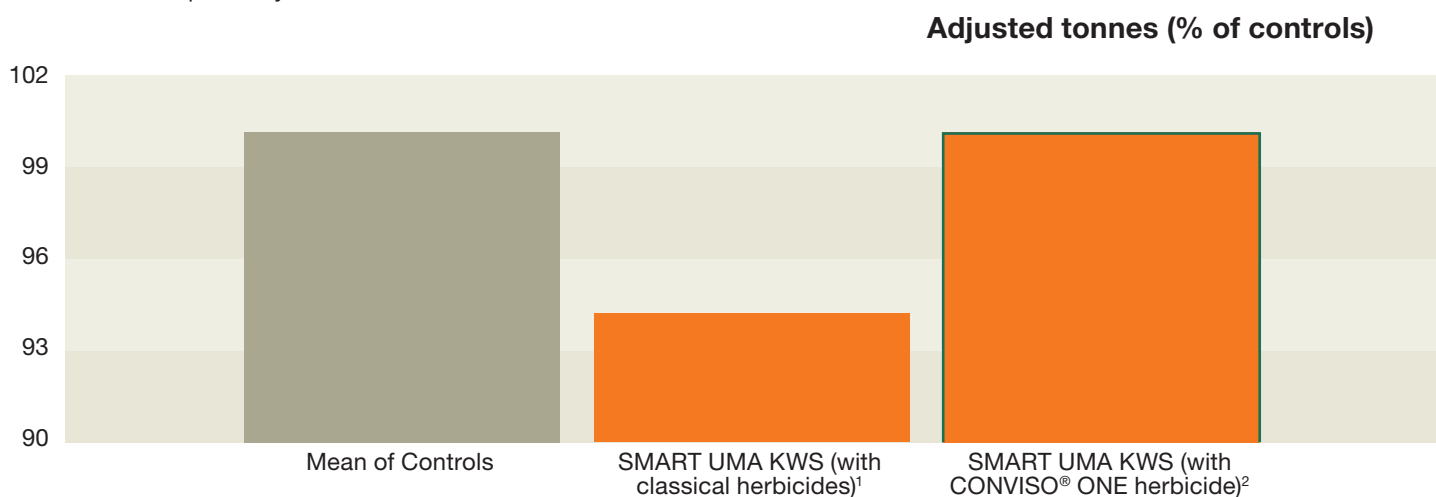

- Highest yielding SMART variety
- Excellent canopy health
- For use as part of the CONVISO® SMART system

CONVISO® SMART VARIETY

SMART UMA KWS delivers significantly higher yields than older SMART varieties, especially when paired with CONVISO® ONE herbicide, outperforming classical controls. With below-average bolting and strong disease resistance (Rust 7.4, Powdery Mildew 6.1, Cercospora 7.6), it offers growers both productivity and peace of mind.

SMART UMA KWS with a single application of 1 x 1L/Ha of CONVISO® ONE. Improved yield through better crop safety and weed control.

Source: BBRO Recommended List of Sugar Beet Varieties 2026 (based on trials from 2022 – 2024) using classical herbicides; 2 includes 5.95% yield benefit from using CONVISO® ONE measured in CONVISO® SMART System Trials, 2018 – 2020 conducted by KWS UK (plots harvested and analysed by BBRO).
